STRAPPING
WRAPPING
CODING
TAPING

Paper tape is the environmentally friendly solution for closing boxes. After use, the packaging box can be recycled, including the adhesive tape. Due to the direct and strong adhesion, paper tape is also suitable for heavy packaging. Another major advantage of paper tape is that it cannot be removed without damaging the box, which has a preventive effect against theft.

Automatic Case sealer

Ideal to seal cartons, with different dimensions in length, width and height which are randomly fed into the taping machine.

The taping head and the two side belts adjust automatically to each box size. The boxes are fed by lateral conveyor belts, driven by two motors thus optimizing even sliding of the boxes and ensuring perfect alignment of the upper and lower flaps which in turn guarantees perfect sealing. These models are user friendly and if combined with infeed and outfeed conveyors, represents a simple, effective and environment friendly packing station.

Options:

- Tape tearing and end indicator
- Water level control with bigger water tank for continuous box sealing

Technical specifications:	
Dimensions (HxWxD)	mm. 1805x1390xh2000
Working Height	mm. 650 - 850
Weight	450 kg
Consumable	Gummed paper tape (all types)
Speed feed belts	20 m/ min
Capacity	7 case/min for the box length of 40cm *
Water reservoir	1 reservoir for each head
Electrical data	220V 50/60 Hz 0,25 KW; 1 phase
Electrical protection	IP55
Compressed air cycle	6.5 nl.
Boxes sizes	Length mm.130- 800
	Width mm.130- 640
	Height mm.130- 700
